JOSIAH TURNER, Jr., EDITOR.

HENRY WARD BEECHER'S FARMING.

BY MARK TWAIN.

Mr. Beecher's farm consists of thirty-six acres, and is carried on on strict scientific principles. He never puts in any part of a crop without consulting his book. He plows and reaps and digs and sows according to the best authorities—and the authorities cost more than the other farming implements do. As soon as the library is complete, the farm will begin to be a profitable investment. But book farming has its drawbacks. Upon one occasion, when it seemed morally certain that the hay ought to be cut, the hay book could not be found—and before it was found it was too late and the hay was all spoiled. Mr. Beecher raises some of the finest crops of wheat in the country, but the unfavorable difference between the cost of producing it and its market value after it is produced has interfered considerably with its success as a commercial enterprise. His special weakness is hogs, however. He considers hogs the best game a farm produces. He buys the original pig for a dollar and a half, and feeds him forty dollars' worth of corn, and then sells him for about nine dollars. This is the only crop he ever makes any money on. He loses on the corn, but he makes seven dollars and a half on the hog. He does not mind this, because he never expects to make anything on corn, anyway.—And any way it turns out, he has the excitement of raising the hog, any how, whether he gets the worth of him or not. His strawberries would be a comfortable success if the robbins would eat turnips, but they won't, and hence the difficulty.

One of Mr. Beecher's most harrassing difficulties in his farming operations comes of the close resemblance of different sorts of seed to each other. Two years ago, his far sightedness warned him that there was going to be a great scarcity of water melons, and therefore he put in a crop of twenty seven acres of that fruit. But when they came up they turned out to be pumpkins, and a dead loss was the consequence. Sometimes a portion of his crop goes into the ground the most promising sweet potatoes and comes up the internalest carrots—though I never heard him express it just in that way. When he bought his farm he found one egg in every hen's nest on the place. He said that here was just the reason why so many farmers failed—they scattered their forces too much—concentration was the idea. So he gathered those together and put them under one experienced old hen. That hen roosted over that contract night and day for eleven weeks, under the anxious personal supervision of Mr. Beecher himself, but she could not "phase" those eggs. Why? Because they were those infamous porcelain things which are used by ingenious and fraudulent farmers as "nest eggs." But perhaps Mr. Beecher's most disastrous experience was the time he tried to raise an immense crop of dried apples. He planted fifteen hundred dollars worth, but never a one of them sprouted. He has never been able to understand, to this day, what was the matter with those apples.

Mr. Beecher's farm is not a triumph. It would be easier on him if he worked it on shares with some one; but he cannot find anybody who is willing to stand half the expense, and not many that are able. Still, persistence in any cause is bound to succeed. He was a very inferior farmer when he first began, but a prolonged and unflinching assault upon his agricultural difficulties has had its effect at last, and he is now fast rising from affluence to poverty.

THE FINANCIAL SITUATION.

The history of speculation may be freely ransacked for precedents and illustrations; but the moral of the gold panic is misgovernment. Under a system which takes the poor man's pot and the poor man's skillet, and exempts from taxation the rich man's millions, disaster must be only a question of time. Wall street is what a Radical Congress has made it.

The reporters, always more or less sketchy, grow brilliantly picturesque. The very furniture and personnel of Mr. Speyer are described with minute detail. Portraits of Fisk, Jr., and Vanderbilt are flashed over the wires. We need not refer to a bookcase for a notion of the devil on two sticks who has been turned loose on Change. He is rendered in a life-like way by a hundred stock brokers; and there are hints of dark places—little, mysterious, back-room hells—lying close and neighborly under the shadow of Trinity.

The New York Tribune tells us complacently that "it is feared there are worse times ahead." Is it, forsooth? Worse times! Worse times! Well, that is cool. A break-neck Radical oligarchy in Congress; a sweet-souled Radical saint in the Treasury; a thundering ring in Wall street; little rings and big rings in every part of the country; three or four States held at the point of the bayonet; a mountain of debt; layers upon layers of taxation, and nobody at the White House but a solemn owl who lifts up his voice and exclaims with benignant iteration, "let us have peace." Better to say—better for the poor man—better for the rich man—better for the national credit—better for peace—"let us have justice." The Tribune is philosophic. We like that; but before these waves which dance upon the beach roll back, they will swell into a tempest that will sweep down all the Radical barricades. * * * * * *Courier Journal.*

STORMS IN THE SUN.—Scientific investigation into the mysteries of the sun's surface has been great this year. A great magnetic storm is predicted. An examination of the sun through new and powerful instruments has revealed new and wonderful appearances on its suface. Immense spots, millions of miles in extent, are said to have appeared. One of them recently moved a hundred thousand miles in a second. We are told, too, that violent physical changes are going on; that the magnetic storms are regulated by fixed laws and occur every eleven years. The next one is to be in 1870. Its effects upon magnetic instruments will be noted with intense interest by the first scientific men of the day. What effect these storms will have upon the atmosphere, vegetation and the light of the sun, will afford plenty of food for speculation and thought.

Wm. Moody an Indiana farmer, killed his wife, fired his house with all its contents including considerable money, saw it all well burned and then shot himself.

AND THE NEW

UNIVERSAL CLOTHES WRINGER

Improved with ROWELL'S PATENT DOUBLE COGWHEELS, and the PATENT STOP, are now acquiesced by far superior to any apparatus for washing, clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Salem Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater account of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9 and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

THURSDAY, OCTOBER 7, 1869.

CORNERED.

The editor of the *Standard* is becoming unusually scurrilous in his language, and is beginning to use the "willful lie," and such like elegant phrases, common to his class, when unable to meet with argument the charges brought against the party of his "organ." As the boy did, who was kicked by the jack-ass, we shall consider the source whence such "arguments" come, and let them pass.

In the meantime, the *Standard* would much more gratify the public by showing, if it were possible to do so, that the present Radical party, bearing unlimited sway in this State, has not laid an onerous and unnecessary burden of taxation upon them; that it was not requiring them to pay interest on sixteen millions of dollars when they get but little over five millions; that the Radical Legislature had not tried, in addition to the sixteen millions of debt saddled on them, said to be constitutional, to saddle them with nine or ten millions more that was *unconstitutional*.

Pike has made but one effort in this direction, in which he signally failed to agree with either truth or the Treasurer. It is very clear he is not an arithmetician, although, we believe he is remotely or immediately connected with the Pike that published the Arithmetic that "us boys" used to puzzle over so despairingly. We have said, "immediately or remotely connected," we don't know which, but we should be inclined to think him a lineal descendant but from his utter obliviousness to the value of "Federal money," when it comes in the shape of taxation upon the people.

But Pike does not inherit any of the mathematical talent of his illustrious ancestor, the arithmetic maker, else he certainly would be able to back up his declarations about the legislative appropriations with less figurativeness and more figures; and moreover, he would have avoided that blunder of running right counter to the statement of the Treasurer, in regard to the actual amount of appropriations, of a Constitutional character, made by the Legislature. But if Pike be a failure as a mathematician, he is certainly skilled in that species of logic embodied in the laconic phrase "you're another!" Most of the arguments contained in the *Standard* articles of late resolve themselves simply into that logical conclusion—"you're another." If the editor wishes to benefit his party, and relieve them of the odium attached to their profligacy and extravagance, he would do better to abandon his billingsgate logic and be alive himself more to the exemplification of his assertions by figures. If he can bring about an agreement between his figures and the people's pockets, he will effect much more than he ever will by his peculiar logic.

COLLECTION OF TAXES.

The limit of time for the payment of taxes is past, and now come the *forcing* process upon all those who, prior to the first day of October, were unable to respond to the calls of the collectors, and now we shall soon see the hand bills posted throughout the country "Tax Sales," and many who have been unable to pay their taxes will be helped to do so through the process of these distraint sales.

We noticed, several days ago, a letter addressed by the Treasurer to the Sheriff of Mitchell county, in reply to a letter from the Sheriff telling him he could not collect the taxes in that county. So the people of Mitchell are beginning to *feel* the effects of "loil" radical rule, are they? We learn that about four-fifths of the voters of Mitchell county are Radicals, and helped to bring about the state of things under which they are now groaning. We sincerely hope this little *taste* of radical rule will serve to turn these plain, industrious mountain people from the error of their political way, and convince them of the absolute necessity of establishing a system of State Government that secures right and justice to all, while it is cheap and stable; and of having that Government administered by wise and virtuous men. Let them consider that "when the wicked bear rule, the people mourn."

We hear of like complaints of taxes from all parts of the State. Let the people mark the fact that these evils are, in great part, the consequences of the wicked and corrupt rule of incompetent and faithless men.

COMMON SCHOOLS.

The Governor and all his understrappers told the people, and especially the colored people, that one of the great aims of the Radical party was to provide Common Schools for the education of the children of the State, white and black. How have they *redeemed* this pledge, the one they made the greatest parade about? There is not, to day, a Common School in the State, not one! What apology do they offer for this faithless conduct? None whatever.—If they say they have no money, the reply stares them in the face, they have appropriated millions on millions of dollars, and taxed the people beyond endurance for other purposes, *to enrich themselves*, to provide fat offices for partisans and carpet baggers, and to place large sums at the mercy of the "Ring," but not a dollar for the education of the poor children of the State. They knew how anxious the people are on the subject of education, and, hence, the loudness of their professions and promises concerning Common Schools, but now they are in office, they laugh at and deride the people, while they themselves steal and rob without stint.

Why, just see; not a single Common School in the State, and yet there is a whole *corps* of Professors at the University, each getting a large salary, and doing nothing—literally nothing. Nobody goes to the University; it is a laughing stock; but still it answers the purpose of enabling carpet-baggers and other favorites there to draw their salaries, that is all they do.

But why talk or write about these evils. The faithless fellows don't care a fig for anything that may be said on the subject.

THE CHATHAM RAILROAD BONDS.—Mr. Treasurer Jenkins says he did issue the $2,000,000 of State bonds to the Chatham Railroad Company, but that the Supreme Court held that the bonds were void, because the Act of the Legislature making the appropriation is in violation of the Constitution. But nevertheless, the bonds are out, capitalists have bought them, and, we learn, the coupons for the interest have been coming in to be paid. This is just as we expected. The holders of the bonds demand the interest, but, we suppose the coupons are not paid. But the public ought to be informed about the matter.—We learn that it is extremely difficult to distinguish the coupons on these bonds from others. If this be so, then it may be, after all, the people may have to pay, at least, some of the interest. Can the Treasurer or any one else tell the public what there is to distinguish the Chatham Railroad coupons from others?

The people are to be cursed and annoyed with these bonds indefinitely in the future. They are to be annoyed with the Penitentiary bonds in like manner. The Chatham Railroad bonds, and the Penitentiary swindle ought to damn, politically and forever, the present State administration.

One of the conductors on the Sixth avenue cars in New York is a millionaire, whose drafts for tens of thousands of dollars would be honored by any bank in the city. The *Sun* says of him:

"Eight months ago this young man started from the 'Halls of the Montezumas' for a trip around the world. He took $15,000 in sterling exchange. This amount was supplied by a generous father, with instructions to draw for all sums required after that was exhausted. The father is an Englishman, a manufacturer of 27 years' residence in the city and valley of Mexico, where he has accumulated several millions of property. His family consists of wife, this son, the Sixth avenue conductor, and a daughter. The son came to New York, and his money vanished as other large amounts have passed from other hands.—The rounds of Gotham, coaches and varied pleasure, one constant whirl of excitement, soon left our hero without money with which to continue his contemplated swing around the world's circle. Ashamed to draw for additional funds so soon after leaving home, he sought employment and obtained it. An elegant wardrobe is hung away, while with coarser garments he pursues his conductor-life on a street car. At a reasonable time from his arrival and after he reaches London (he is saving his money for that purpose) he says that he will draw upon his father. He does his work cheerfully; says he has learned a world of lessons, taken thousands of insults, thrown a dozen wretches from his car during the last four months, and all in all does not regret his experience of car life in New York."

A friend has called our attention to the following paragraph in an English paper, the Yorkshire Post and Leeds Intelligencer, of September 6, 1869, in which light is thrown on a heretofore dark subject:

THE APPROACHING GREAT TIDE.—Lieut. S. M. Saxby, of the Royal Navy, writes to a contemporary to state "at 7 A. M., on October 8th, the moon will be at that part of the orbit which is nearest the earth. Her attraction will, therefore, be at its maximum force. At noon on the same day the moon will be on the earth's equator, a circumstance which never occurs without marked atmospheric disturbance, and at 2 P. M., on the same day, lines drawn from the earth's centre would cut the sun and moon in the same arc of right ascension (the moon's attraction and the sun's attraction will therefore be actually in the same direction.) In other words, the new moon will be on the earth's equator when in perigee and nothing more threatening can, I say, occur without miracle (the earth, it is true, will not be in perihelion by some 16 or 17 second chronometer.") The consequence of this will be one of the highest tides ever known.

Methuselah was the oldest man that ever lived, yet the Bible tells us he died before his father. We suppose that it Enoch (the father of Methuselah) was carried off by a Divine dispensation, "and *was not*," when his healthy boy was only three hundred years old, (Gen. v. 23, 24.) the latter might properly be called his "survivor," without reference to the particular manner of departure (by death or otherwise) of the parent. Methuselah, for all that appears to the contrary, might have lived to the destruction of Jerusalem, had he not been prematurely carried off in the very prime of his patriarchal vigor, by that sweeping catastrophe the Noachic deluge. We read that he was born 187 years before his eldest son; or, in other words, that he was 187 years old when Lamech was born, (Gen. v. 25,)—that Lamech was 182 years old when Noah was born, (Gen. v. 28,) and that "Noah was 600 years old when the flood of waters was upon the earth," (Gen. vii. 6.)—By adding these three periods together, we find their sum to be 969 years, which would be Methuselah's age "when the flood of waters was upon the earth," and we know that he was not included in his grandson's ark. This accords exactly with the statement of the sacred historian, (Gen. v. 27,) that "all the days of Methuselah were nine hundred sixty and nine years" before he died.

The Kentucky State Fair closed Saturday, after five days of successful exhibition, during which the receipts were $15,000.

A monument, which cost $25,000 has been erected in Laurel Grove Cemetery, near Savannah, over the remains of the late Rt. Rev. Bishop Stephen Elliott, of the Diocese of Georgia. On the front is cut the Bishop's mitre, and in the rear the cross keys, symbolical of the Bishop's office.

POSTING THE BOOKS.

California gave Grant a majority of 500. The Democratic majority in the election just held is 12,000! In the Legislature, forty eight Democrats and three Radicals go to the House and four or five Radicals to the Senate. In Maine, Grant had a majority of 28,000. The Republican majority over all now is 8,000. In Tennessee, Grant had 30,000 majority. At the late State elections, a Legislature composed almost entirely of Democrats and Conservatives, was chosen, and the extreme Radical candidate for Governor beaten 20,000. In Virginia, despite all the efforts of the Administration, the Democrats and Conservatives carried it by 20,000.

This is one way of posting the books, and by and by, expecting, as we do, to see a continuation of the old order of things in Washington, we shall also expect the same popular rebukes from the people. Gen. Canby, a Federal military officer, has sustained to the end Wells and his followers; protected officials under indictment from trial by civil courts, and insisted upon exacting test oaths from members of the new Legislature until compelled to do otherwise by the adverse opinion of the U. S. Attorney General. In other Southern States we see the same truckling of the military to Radical dictation. Georgia is as badly off as Virginia. Recognized formally as an equal State, she is still kept practically out of the Union, and her members of Congress, after being received by the House, have been denied seats in that body. Her electoral vote was contested, and not Governor is the mere image of the military satrap in command of the State.

In Texas, General Reynolds, the commander of that military district, backed up ed by the President of the United States, throws himself unblushingly into the hands of Davis, the candidate of the Radicals.

The conclusion everywhere is that just so long as the Radicals have power they will abuse it, and just so long will the country be disturbed in all its relations.—*N. Y. Express.*

A STRANGE STORY AND CONFESSION OF A MURDERER.

The Trenton (N. J.) *Sentinel* has the following:

It is now forty years ago or more that the dead body of a stranger was found in the woods near Stonybrook bridge, about one mile to the east of Pennington, a village of this county. The body was found in a sitting posture against a beach tree. The face was distorted, the eyes protruding as though the dead man had died in agony. His hat lay a few feet from him. His dress denoted one in comfortable circumstances. He was a stranger, and no one ever remembered to have seen him. There was no money upon the corpse. The body, without special examination, was buried—we forget where. There were no wounds upon it, and no evidence of violence.

And now comes the strange elucidation of the case. A few days since an accident placed in our hands a copy of the Manchester (England) *Guardian*. In that number we found the dying confession of a man named Daniel Hulseman, acknowledging to a murder perpetrated forty years ago in the State of New Jersey, United States of America. The murderer was acquainted with his victim in the old country and came out about one year before him. Hulseman was a tanner, and worked in New York.

When Eberhart came over he sought out his old acquaintance. He had about £200 in money. On pretence of examining the country and purchasing land, Hulseman started with Eberhart on a tour through New Jersey.

He had with him a flask of poisoned brandy, as he had resolved to murder his friend for his money. They first stopped at Princeton, and then concluded to walk across the late voting nine miles to Pennington the weather being pleasant, and public travel being greatly circumscribed.

When within a mile of the latter place they stepped over into woods, under a tree, to partake of some victuals they had procured before starting. Hulseman then passed his flask to his companion, who drank liberally, and died within an hour thereafter in fearful agony, Hulseman looking on the while. He then robbed him of his money and set him up against the tree as before described.

There are still old men about Princeton who will remember this event. It seems almost marvellous that after a lapse of forty years that this affair should have come to light by a death bed confession, 3,000 miles from the place of commission. And yet it is even so.

DID YOU EVER?

The Ohio *Patriot*, asks these impertinent questions, for doing which, the Radical press will have the right to have the editor of that sheet indicted for extreme cruelty to animals:

When the good old Democratic party was in power, did you hear of spies nosing among your private goods to see if you have complied with the provisions of an unknown and unpublished law?

Did you ever hear of stamps?

Did you have to swear as to how much money you made?

If a manufacturer, did you have to make a monthly report to some lazy official getting five or ten dollars per day?

Did you hear men (as you now do) advocate the policy of paying the laborer with paper rags and the money shavers with gold?

Did you hear of a tax on everything you eat or wear in addition to a State, county and municipal tax?

Did you hear of a President riding about in a steamboat wholly to his own use at the expense of the people, when he was receiving a salary of $25,000 per year?

Did you ever hear that a negro was better than a white man?

FINANCIAL VIEWS OF MR. A. T. STEWART.—The New York World's interview reporter has had a conversation with Mr. A. T. Stewart, the eminent dry goods merchant, (whom President Grant nominated as Secretary of the Treasury,) to know what effect he thinks the recent operations in Wall street will have on the commercial interests of the country. The reporter says Mr. S. responded as follows:

"I cannot regard them as otherwise than disastrous to our commercial interests. In the first place they interfere with and confuse our values by rendering uncertain the price of gold. But to this there is added another reason. In the demoralizing effect which it must produce.

"I disapproved of the policy of selling gold and purchasing bonds with the proceeds, believing as I do that it will never lead us, as it is probably meant to lead us, to specie payments. Such a policy would not lead us to such a result in ten years—no, nor in a hundred. The purchase of bonds with gold gives the speculators means to carry on their operations. This policy is unquestionably of great benefit to those who have no means of their own.—While solvent men will entirely oppose this policy, it will be approved of by those who are shaky."

These are Mr. Stewart's own words.—Taken down from him and written in his presence, they were read to him, rewritten out and revised, and in a phrase or two toned down.

GENERAL NEWS.

"Our yellow silk us" is the California term for the Chinese.

Senator Brownlow, of Tennessee, who has recently been very ill, is convalescent.

Lord Stanley has been married seven years to a Spanish lady, and has just confessed it.

Tom King, an old prize fighter and former companion of Tom Sayers, has turned preacher in England.

If the Capitol is not removed, the Cabinet ought to be, since it was "off-all" last summer.—*N. Y. Times.*

The Nashville *Press* and *Times* says that the watch presented to Lafayette by Washington, and stolen in that city in 1825, has recently been discovered in a pawnbroker's window in a western city.

Among the bridal presents received the other day by a young lady in New York—the daughter of a millionaire—was a seventy thousand dollar house, with fifty thousand dollars' worth of furniture.

A collection of twenty-five pins, very well made, has just been placed in the Louvre. They were found in the subterranean vaults of Thebes and were made more than three thousand years ago, showing that the modern invention is only a reinvention.

San Francisco incendiaries make use of an infernal machine, composed of two pieces of hardened clay, six inches in length and two in breadth, inclosing a small phial filled with powder, and having a fuse, attached to it. The machine, except the fuse, is covered with cloth and twine, saturated with oil.

The young Marquis of Bute, who has an income of a ten hundred thousand dollars a year, wanted to buy the island of Arron, on the coast of Scotland, and offered two million and fifty thousand dollars for it, but an oil refiner of Glasgow went him two hundred and fifty thousand dollars better, and took the island.

Mrs. Twitchell, who was tried in Philadelphia for the murder of her mother and acquitted, and whose husband, having been condemned for the crime, escaped the gallows by suicide, is going to ask the Pennsylvania Legislature to change her name.

As a Mississippi carpet bagger named Flournoy was about to speak to a large crowd of negroes which he had collected together, he was handed a telegraph dispatch which informed him that his son had been killed in Georgia, by a freedman. He postponed the circus.

It is rumored that Goat Island, on Newport, R. I., which is the property of the Government, is again to be occupied in the interest of the War Department. A large manufactory of torpedoes is to be established there, and work has already begun. The ruins of the old fort will probably be demolished.

Three hogs fell into a sinkhole near Brazeau church, in Perry county, Mo., on the 15th of May and were not discovered until the 15th of August, when they were found still alive but somewhat short of flesh. At least such is the story of a reliable farmer in the vicinity.

The Woolwich Dockyard, nine miles southeast of London, which has been in operation as government works for over three hundred years, has been closed, and will either be sold or leased to private shipbuilders. This dockyard, at the lowest estimate, is worth $5,000,000, and if leased at 2½ per cent. on this valuation would yield a rent of $125,000. The town of Woolwich has a population of over forty thousand souls, and owes its prosperity to the government establishments.

Admiral Porter was riding in a street car in Washington the other day, in which were two or three drunken national sailors. The became so obstreperous that the Admiral expostulated with them, and finally, telling them who he was, he asked one of them what ship he belonged to. With a twinkle of the eye and a swaggering air, the sailor hiccoughed out, "Admiral, you have changed the names of the ships so often that I really don't know what ship we do belong to."

Here are a few pithy sentences which are truly suggestive: Sorrow's best antidote is employment. Beauty devoid of grace is like a nook without a bair. Confine your expenses, or they will confine you. He that falls in love with himself will have no rivals. If you cannot do as well as you wish, do as well as you can. Promises made in the time of affliction require a better memory than people commonly possess. When you hear a man say life is but a dream, tread on his corns and wake him up. Life is real. Be deaf to the quarrelsome, blind to the scorner, and dumb to those who are mischievously inquisitive.

ANOTHER "KU KLUX" OUTRAGE.—On Tuesday last while the Court was in session, and as Mr. Morgan Walker, than whom there is not a more peaceable or more respected citizen in the county, was leaving the Court House, he was impudently assailed by one Tom Johnson, a negro, in a very insolent manner in regard to some business matter, the points of which we could not gather. Johnson called Mr. Walker a liar, when Mr. W. let fly and sprawled him at full length, and would have given him a just and merited punishment had it not been for the interference of others. Mr. W. went into Court and submitted—was afterwards arrested and carried before the Mayor, who bound him over to Court. The negro was quietly sent home to wash his wounds. We learn that even Radical officials express their contempt that white men must be arrested, while negroes are let go "scot-free."—*Western Vindicator.*

JURY OF INQUEST.—Coroner E. Allen summoned a jury yesterday, and proceeded up the river a short distance to hold an inquest on the body of a negro man by the name of John Hopkins, who was drowned a few days ago near the Railroad bridge at Meares' Bluff, and whose body was recovered yesterday morning. The verdict of the jury was, that he came to his death by accidental drowning.—*Wilmington Star.*

The Galveston (Texas) *News* believes that the recent attempt to assassinate Judge Hardin Hart near Bonham, in the extreme Northern portion of the State, had no reference to present political affairs, but was the result of old difficulties of a personal nature, dating back many years.

YARBOROUGH HOUSE'
RALEIGH, N. C.
OFFICE NO. 13, FIRST FLOOR.

Entered according to act of Congress in the year 1867, by MORRIS BERNHARDT, in the Clerk's Office of the District Court of the United States, for the Middle District of Alabama.

MORRIS BERNHARDT,

OPTICIAN,

OF BERLIN, PRUSSIA.

Recently of New York, offers those who are suffering from weak and defective sight, his

AND

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,
SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. They can be worn with perfect ease for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. How to select Glasses. It requires professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. When the eyes ache or pain through the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing or vivid colored bodies; these lenses, by softening the rays effect a most agreeable sensation and give great relief.

4. These spectacles are scientifically adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. After several years of public practice adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. M. Bernhardt, to signalize himself from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union.

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully,
F. J HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H McKEE, M. D.

Raleigh, Aug 23, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 23, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

J. M. ATKINSON,
Pastor of the Presbyterian Church.

State of North Carolina,
EXECUTIVE DEPARTMENT,
Raleigh, March 29, 1868.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1868.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.
Prof Morris Bernhardt, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seems to be some adapted to remedy any kind of defect in vision.

THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr. Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

W. K. BOWLING, M. D.

Testimonials similar to the above may be seen at Dr. Bernhardt's office, from the most reliable and well-known gentlemen of the United States, among whom are:

HORATIO SEYMOUR, Governor of New York,

OFFICE HOURS FROM 9 A. M. TO 6 P. M.

NEW GOODS!
A HOUSE CHOCK FULL!!
AT
Creech's!
WHOLESALE & RETAIL DEALER
IN FOREIGN and DOMESTIC
DRY GOODS.

WIDE AWAKE HOUSE!

DOWN STAIRS FULL; UP STAIRS FULL; SHELVES FULL; PILED ON THE COUNTER; PILED ON BOXES AND ALL ABOUT THE HOUSE!

COME TO CREECH'S!!

DRESS GOODS! DRESS GOODS! In great variety; Styles new; Goods pretty, cheap enough to buy.

FRENCH MERINOES,

In which I recognize no competition, as they will be sold just as cheap as they were when Cotton was 10 cents per lb. and money equivalent to gold.

ALWAYS COME TO CREECH'S to buy MERINO DRESSES for my money is as good as anybody's; I bought them as cheap as anybody, and I intend to sell as cheap as anybody. That's the way to talk it.

GOODS FOR MEN AND BOYS' WEAR,

Such as Kentucky Jeans, Tweeds, Satinets and Cassimeres. No better assortment or greater variety in the city. In fact, I have enough to keep the boys, the youths, the young men and the old gentlemen, all warm. Step in at Creech's and look at them before you buy.

HATS! HATS! HATS!

For Gent's, Boys and Children. Pull off your old summer hat; it's too late to wear it now; style is changed. In fact, a new hat looks best, anyhow. Call at Creech's corner and examine, before you buy a new Hat.

SHOES! SHOES! SHOES!

One among the largest and best assortments in the City. Come pull off your old shoes, throw away those that are worn out, and put on a new pair. Keep your feet dry, and preserve your health. Always come to Creech's before you buy.

Ladies and Misses' Hats! Hats! Hats!

No use to talk. The style has changed. Spring and Summer styles are out of vogue; so go to CREECH'S. HE ALWAYS KEEPS THE NEW STYLES.

LADIES' BONNETS.

Some small enough; some large enough; some trimmed; some untrimmed. It won't do you any harm to call at Creech's before you buy.

CLOAKS AND SHAWLS.—A Fine Assortment.

Now don't you think you had just as well step over to CREECH'S, and look. Probably you will save time and money. In fact, that is just the very place to get the worth of your money; and permit me to tell the people, that when they visit the City, to COME TO CREECH'S, for thousands who have come, acknowledge the truthfulness of my assertions.

I have more to say to you, but will tell you the balance at my place of business.

A. CREECH.

THE SENTINEL.

CITY AND STATE ITEMS.

THURSDAY, OCTOBER 7, 1869.

☞ THEO. N. RAMSAY, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

NEW ADS.—Valuable vacant Lots for sale, James M. Towles.

Hardware, J. Brown, with Hart and Lewis.

Important to Mill owners, Jno. A. McMannen, Durhams, N C.

Five shares N. C. R. R. Stock for sale; W. H. Jones & Co.

Two hundred sacks corn, for sale, W. H. Jones & Co.

We would call special attention to the card of Mrs. H. W. Miller, who offers board on the most reasonable terms to permanent or transient boarders. To persons visiting the city during the Fair week, the charges are made low indeed.

SUPERIOR COURT.—A number of cases, embracing the forms of crimes, known as larceny, assault and battery, &c., were up for trial yesterday before this tribunal and variously disposed of. If any case of general interest is taken up, we will have a reporter on hand to give our readers a full report of it.

EJECTMENT.—Before Mayor Harrison, yesterday, morning, Peter Blume appeared on a writ of ejectment sued out by Thomas Sledge. R. C. Badger, Esq. appeared for the Plaintiff, and C. M. Busbee, Esq. for the Defendant. After hearing a somewhat lengthy argument, His Honor rendered a decision in favor of the Plaintiff.

STATE FAIR.—We are pleased to learn from various sources, the great interest taken by our people in the approaching State Fair. A great many leading citizens in all sections have accepted the appointment of Judges in the competition for premiums, and those who decline, on account of the simultaneous happening of the terms of the Superior Courts in their counties, express the liveliest interest in the success of the Agricultural Society.

We commend the foresight and economy of *fifteen citizens* of Salem, who have already written to Dr. Smith, the Corresponding Secretary, to procure for them, good shelter, it being their intention to bring their lodging and provisions, and board themselves. It is needless to say that the Doctor has accommodated them. The exhibition of articles will be good. We are gratified to hear that Edgecombe will compete with Mecklenburg with a bale of cotton, and we hope some of our Wake friends will not decline the challenge.

The Fair will begin on the 19th of October.

MACHINERY.—We understand that the approaching State Fair will show a remarkable variety of ploughs and other agricultural implements. Our farmers should not lose the opportunity of examining them. Now we have to pay so much money for our labor, we must devote special attention to labor saving machinery. The world has not been idle of late, and those living away from the great cities have no idea of the extent of modern improvement.

ANOTHER CONJURATION CASE.—At the recent term of Franklin Superior Court, Baldy Fogg, colored, was prosecuted by Caroline Johnston, colored, on a charge of receiving some money stolen from the said Caroline. The witness was a small boy, nephew of Caroline, who had, at one time stated that he took the money and gave it to Baldy Fogg, but when the matter came up, he denied having done so. The counsel for the defense, suspecting that there was something wrong about the affair, got a chance to question the boy, and learned the following facts from him:

Caroline lost the money, (this was the boy's statement,) and accused him of taking it and giving it to Baldy Fogg; he denied it; she threatened to whip him if he did not confess; still he denied knowing anything about it. To test the matter, Caroline got a gimlet and sifter, bored the gimlet into the sifter rim, then putting one end of the gimlet handle on the middle finger of her left hand, and the other on the middle finger of the boy's left hand, she told him if Baldy had the money, the sifter would turn when she repeated the "charm," which she proceeded to do, as follows, the sifter being suspended in the manner described:

"By Saint Peter; by Saint Paul;
By the God that made us all;
If Baldy Fogg that money's got,
'Sifter turn, sifter fall;"

Whereupon the sifter turned and fell from their fingers to the floor. This was evidence, incontrovertible, to Caroline, that the boy had actually taken the money and given it to Baldy; and she told him, if he didn't confess it, his uncle would'nt leave a grease spot of him. To avoid so sad a fate, he *did* confess that he took the money and gave it to Baldy Fogg, and on this evidence Fogg was arrested, examined, and bound over to Court to answer the charge. Of course, when the facts in the case were brought out, the case was dismissed; but we have no doubt Caroline thinks that Courts; guided by law and evidence, are poor concerns, when set up against the revelations of the gimlet and sifter.

A VERY OLD LADY.—Our old friend Holderby, while in Raleigh, last week, drew the pension of Mrs. Elizabeth Tucker, of Rockingham county, the widow of a Revolutionary soldier, and who is now one hundred and ten years old—perhaps the oldest woman in the State.

The *News* says that the Roanoke is on a 'swell." We generally get on "bends" up this way.

Mr. James Harding, quite an aged gentleman, died at his residence near Graysburg Northampton County, on Monday morning last.

Two hundred bales of cotton were brought into the Newbern market on Tuesday last.

GLOOMY RECEPTION.—On Tuesday evening His Excellency, the Governor, arrived from his Northern tour; that night about nine o'clock, the gas lights suddenly paled and left a number of convivialists at Pepper's in the dark. They were greatly discomboberated, and wanted to know the cause of the sudden gloomy state of affairs, when Galloway, the leader of the Senate, who was present, stated that he supposed it was an appropriate *illumination* of the city on the return of the Governor.

We direct special attention to the Prospectus of the "Advance," a weekly family journal, soon to be published in this city by the Rev. Wm. E. Pell.

Mr. Pell is so well known in this State, that it needs no encomium from us to recommend the "Advance" in *advance* to our fellow citizens.

The late hour at which this is written precludes the possibility of a more lengthy notice, but at another time, we shall have more to say in regard to this new enterprise.

Any paper with the name of Wm. E. Pell, at the mast head, is bound to be an excellent one and recommend itself to a cordial reception at the hands of the public.

OWNER WANTED, for the following letter, which has been picked up, without any address by which the owner can be identified, and we give a description of it, so that the person to whom it rightfully belongs may claim, if he wants it. It seems to have been written by a man in Chapel Hill to some one in Raleigh, who bears the appellation of Captain, about the time Guthrie took the "big scare" and came down to get help against the ku klux. We suppress the name signed, although the writer is well known to us:

On Thursday night of last week, says the Hillsboro *Recorder*, a bold and infamous robbery was committed at the house of Mr. David Reeves of Orange county. Mr. Reeves—an old man of 60 and without a weapon in his house—was sitting in his room when a rock was dashed through the window at him. He went to the door and asked who was there, and that if anybody had any thing against him to come forward and say what it was. A voice outside in the dark replied, "I want your pocket book." He went back to get it, and the scoundrel thinking maybe that he was most too long about it—dashed another rock through the window. Mr. R. hollered to him and told him to come in and get the pocket book, but the scoundrel answered him, "you must bring it to the door and hand it out here!" As the old man approached the door the robber clicked the pistol and told him "to step his foot outside and he was a dead man." So he handed it out not knowing whether it was a white man or a negro. The book contained only a ten dollar bill on a bank of this State.

A man recently died in Milton, N. C. who had lived there for 60 years and yet had never been to Danville, Va.—just 12 miles off—and never saw a Railroad in his life, though he lived for 15 years in 7 miles of the whistle. So says the Hillsboro *Recorder*.

A. J. Burton, Esq., has severed his connection with the *Roanoke News*. Mr. Burton takes this step in order to enter more thoroughly upon the practice of the legal profession. We wish him a career of unbounded success.

Mr. Ballinger has been turned out of the police force of Newbern, by the Board of Aldermen, upon no other charge, than that of being a Democrat. A negro member of the "League," named Turner was put in his place.

Protracted religious services are in progress at Bethesda and Farmwell Churches in Halifax county.

His Honor, the Mayor of Charlotte, has appointed the following gentlemen as delegates to the coming Commercial Convention at Louisville Ky:

Allen Macaulay, R. M. Oates, R. P. Waring, Samuel Wittkowsky, J. Y. Bryce, W. J. Yates and W. R. Myers.

Mrs. Cecelia Rhodes, of Polk county, has just attained her one hundredth year. She remembers distinctly when the British army were in Rowan county.

THAT LOTTERY CASE.—The case of lottery entered by Judge Cantwell against B. F. Whitman and H. J. Sargent some time since, and on the strength of which the Special Court Clerk telegraphed to Raleigh and caused Sargent's arrest some months since, was brought to a temporary close yesterday. The case was called in Court and a *nol. pros.* entered. The Clerk was, however, directed to issue a process should the defendants ever come within reach of the same. As the jurisdiction of the Special Court extends no farther than the city limits, there is no probability that the process will be served very soon.—*Wil. Journal.*

Oak City Council had an accession of six members at the last meting. The Council room was well nigh filled with gentlemen and ladies and a really pleasant time was enjoyed. Brother F. A. Hatch having resigned, brother V. Ballard was unanimously chosen Financial Secretary.—First rate appointment.—*Friend of Temperance.*

The new iron bridge over the Southside railroad, near Farmville, Va., 600 yards long and 135 feet high, has been contracted for by a New York firm at $172,000.

Morning Edition.

TELEGRAPHIC.

Wednesday Evening Dispatches.

WASHINGTON.

WASHINGTON, Oct. 6.—In the Supreme Court, to-day, all were present except Judge Field. The Court is hearing the Gas Light case from Memphis.

Nothing whatever has been received here regarding the Tennessee Legislature. The New York *Times* says they have advices that Johnson men have been elected presiding officers in both Houses.

NEW YORK

NEW YORK, Oct. 6.—A Chinaman, named Gong, killed Chas. Arelone, his own wife and himself; jealousy being the cause.

A negro butcher killed a white man to-day.

RICHMOND.

RICHMOND, Oct. 6.—There were two resolutions introduced into the House to-day, requiring the members and temporary officers to take the iron clad oath, which were referred to the proper committee when it shall have been appointed.

A protest adopted by the Republican caucus last night was presented. It is framed with a view to answering Attorney General Hoar's argument, and protests against the acts of the Legislature at this session, the members not having taken the iron clad and the body being, therefore illegal. It was referred.

The following nominations were made for Speaker: Seebrook Turner, of Rappahannock; S. T. Maddox, of Chesterfield, and John B. Crenshaw, of Richmond. Turner, who was nominated by a Conservative, obtained 87 votes; Maddox, nominated by a Wells Republican obtained 41 votes, and Crenshaw received 5. Turner was declared elected.

In the discussion the point was pressed that Turner now has an application before Congress for the removal of his political disabilities. It was explained that though he (Turner) was not able to take the test-oath, he was not disqualified by the 14th amendment.

J. B. Bezzer, the old incumbent, was elected Clerk.

In the Senate, the same protest of the Republican caucus was presented, and a resolution was adopted, laying it on the table, on the ground that it was manifestly an effort to obstruct reconstruction and was in plain opposition to the intention of Congress expressed in the Reconstruction Acts and in direct violation of the interpretation of the said Acts by the administration.

A resolution was adopted informing the commanding General of the organization of the Senate. Adjourned.

FOREIGN.

HAVANA, Oct. 6.—The first Cuban cable is unserviceable. The second cable, which lands five miles east of Havana, commenced working to-day.

Wednesday Midnight Dispatches.

WASHINGTON.

WASHINGTON, Oct. 6.—Revenue to-day over $500,000.

Proceedings at Wilmington against the "Hornet" were ordered by the Cabinet yesterday.

The report that Secretary Fish had been notified, that the English and French Governments ordered their fleets to pursue the "Hornet" and hang her crew, is untrue.

Attorney General Hoar has rendered an opinion to the effect that the Secretary of War cannot preclude Claim Agents or Attorneys from prosecuting business in his Department in all proper cases, but when there is reason to suspect fraud, the right and duty exist to suspend such business intercourse; it being proper and obligatory to protect the Government from fraud. The Agents or Attorneys should be furnished with the reasons for such suspension in order to vindication.

The opinion was rendered in a case alleged to affect the payment of bounties to colored troops; it being said by an officer who investigated similar cases that they were tainted with fraud.

J. R. Van Alstine, in behalf of the New Orleans tobacco merchants, called on Commissioner Delano to-day and asked that purchases of tobacco in Virginia and North Carolina, may be allowed shipment in bond.

The course of Mr. Delano promises relief to New Orleans and Mobile merchants, as well as to Southern manufacturers.

In the matter of Benjamin Brown, Eli Wood, John Hadgen, Granville Bass, Wm. Andrews, Phillip Stonecutz and W. W. Boyce, formerly of South Carolina permission has been asked to file a motion for writs of habeas corpus. In these cases the motion was directed to be argued on Friday next. The prisoners are charged with murder in Texas in June last and it is alleged that they are now being tried by a Military Commission.

VIRGINIA.

RICHMOND, Oct. 6.—The House chose T. C. Crittenden, Sergeant at arms and adjourned. Z. Turner, who was elected speaker of the House to-day, is a lawyer about 60 years old and one of the first advocates of Reconstruction in the State. He was an old Whig, changed to a Douglas Democrat in 1860, and was shortly after defeated as a Union candidate for the Legislature.

MARKETS.

NEW YORK, Oct. 6.—Cotton a shade easier, sales of 3,00 bales at 27¼, Flour a shade firmer on low grades with more doing; Wheat more doing for export; Corn closed quiet, unchanged; Pork dull at 31 to 31½; Lard unchanged; Whisky dull, 1 18 to 1 20; Sugar steady; Coffee dull and heavy; Molasses quiet; Naval stores firm; Freights unchanged.

Money closed easy at 3 to 7; Gold closed at 31; Sterling quiet at 9; Stocks weak and unsettled; Governments steady; Southerns weak.

BALTIMORE, Oct. 6.—Cotton quiet at 27½; Flour quiet and weak; Wheat steady; Corn dull, Southern white 1,06 to 1,10; Oats 57 to 58; Rye 1,20; Rye 1,20; Pork 33; Bacon firm, Shoulders 17½; Whisky flat at 1 24 to 1 32; Va's. old, 45 bid.

LIVERPOOL, Oct. 6, M.—Cotton firmer, Uplands 12½; Orleans 12½; Sales 12,000 bales.

WILMINGTON, Oct. 6.—Spirits Turpentine 41; Rosin steady, strained 1 60, No. 2, 1 80; Crude Turpentine 1 50 to 2 50; Tar 2 50; Cotton quiet 24½ to 25

A Cheap Truck Farm For Sale.

PRICE $650.

DESIROUS OF REMOVING FROM THE state, I will sell my Farm located in Chatham County, on the waters of George's Creek, near Deep River, containing

FORTY SEVEN ACRES OF LAND,

Including a comfortable Dwelling, Kitchen, Barn, Stable, Blacksmith-Shop, Smoke-House and Crib, besides other conveniences, among which is a never-failing Spring of excellent Water, within twenty feet of the Kitchen door. This Land is FRESH and well adapted to the cultivation of all kinds of Fruits and Vegetables, as well as Cotton, Wheat and Tobacco.

The advantages this Farm offers is its convenience to the Raleigh and Fayetteville markets, being only a few hours run from either place, and is almost on a line with the Chatham Road now under construction, and two and a half miles from the terminus of the Fayetteville and Western Railroad.

Any person who wishes to buy a GOOD FARM for a LOW PRICE, will have the opportunity by applying to me at Egypt Depot, N. C., as early as possible.

THE UTLEY
COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes; and it can be readily taken down and transported, as it is simple and light. We can supply three Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

A Card.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it. *Free of Charge.*

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorised to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

JOHN HANCOCK,	18,27
THE NATIONAL,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fulness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 599 policies, received an income of seventy-eight thousand dollars, and possessed assets amounting to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 12,537 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested cash assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

SCHOOL BOOKS.

UNIFORM SYSTEM OF

TEXT-BOOKS

FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction, Raleigh, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of Mr. Alfred Williams, for the following books, which were adopted Aug 9th, 1869, by the State Board of North Carolina for uniform use in the Public Schools:

Parker & Watson's National Primer.
Parker & Watson's National Spellers.
Parker & Watson's National Readers.
Davies' Arithmetics.
Monteith & McNally's Geographies.
Monteith's Youth's History of the U. S.
Eder's System of Penmanship.

The New Descriptive Geography of North Carolina will be ready about the middle of October, prox. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

Prof. Jerome Allen's Complete System of Map Drawing will also be furnished to the Public schools with Monteith & McNally's Series, without extra charge.

The books will be supplied at exceedingly low rates to the Public schools in the state.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in accordance with the state contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by ALFRED WILLIAMS, Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with C. W. LAMBETH, Agent for the Publishers and Sup't of Introduction.

From Dr. Wm. B. Harrell, Prin. High School, Snow Hill, N. C.:

Snow Hill, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long need no others were these could be obtained.

From Rev. Albert Smedes, D. D., Rector of St Mary's School, Raleigh, N. C.

Raleigh, N. C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable. ALBERT SMEDES.

From J. W. Gulick, A. M., Prin. Male Academy, Goldsboro', N. C.:

Goldsboro', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Ganot in particular. J. W. GULICK.

From Col. Wm. Bingham, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. Cross, Prin. Durham Academy, N. C.: Durham, N. C.

I design introducing the present session McNally's Geography and Davies' University Arithmetic; also Reed's Elements of English Composition. M. CROSS.

From M. L. Little, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.

Newton, N. C.

Will introduce the University Arithmetic next term. Have examined it with much satisfaction. An admirable work. M. L. LITTLE, Prin Pleasant Hill Seminary.

From Rev. S. Ivey, Prin Auburn Academy N C.: Auburn, N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school.

STINCEON IVEY.

Prof. Wm A. Oerkhain, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. Dugger, Esq., Prin. Male Academy, Warrenton, N. C.

Warrenton N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Ganot's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing book and must meet with universal commendation. J. E. DUGGER.

From W. C. Kerr, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most pris ary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing Eeward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. Bernheim, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.

Mt. Pleasant, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much acceptance. G. D. BERNHEIM.

From Prof. Jos. H. Fox, President Stantonsburg Scientific High School, N. C.

Wilson, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——, which stands next best on the list.

McNally's, the fifth book of the course, is decidedly the chef d'oeuvre of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit. J. H. FOY

From the Statesville, N. C. American, February 20th, 1868.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern States. The series consists of the National Primer, or Word Builder, National Elementary Speller. The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.

From the Raleigh Daily Progress, Feb 20, 1868.

National Second Reader.—We have never examined a volume of its class which we could commend more cordially to parents and teachers.

From the N. C. Presbyterian, March 7, 1868.

National First Reader.—We recommend it to all who desire a valuable book of instruction for beginners.

UPWARD AND ONWARD!!

WHY IS IT BEST TO INSURE IN THE

BROOKLYN LIFE?

BECAUSE,

AMONG OTHER REASONS, IT IS THE ONLY COMPANY IN THE UNITED STATES WHICH PRESENTS THE GREAT FEATURE OF GUARANTEEING DEFINITE

CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

ALL POLICIES

Are non-forfeitable after two full Annual Premiums have been paid.

The policy-holders of this Company may travel or reside where they choose—anywhere on the Globe.

The BROOKLYN LIFE has paid, and now pays to its policy-holders, LARGER DIVIDENDS than ever before paid by a Life Insurance Company.

DIVIDENDS ARE PAID IN CASH,

or applied to the permanent increase of the policy, or left with the Company to accumulate at interest, in either way, at the option of the policy-holder.

LIFE INSURANCE.

'NOTHING SUCCEEDS LIKE SUCCESS.'

READ!

THE NATIONAL LIFE INSURANCE COMPANY, OF THE UNITED STATES OF AMERICA, WASHINGTON, D. C.

JAY COOKE & CO., GENERAL SOUTHERN AGENTS,

E. S. TURNER, - - Manager,

Has issued in the first Ten Months of its existence, 5 395 policies, insuring over

$15,000,000;

being double the business of any other Company in the world during the first year of its existence.

The Company affords its policy-holders PERFECT SECURITY by its cash capital of One Million Dollars, and guarantees to the insured, by its low rates of premium, LARGE DIVIDENDS IN ADVANCE, or a REVERSIONARY DIVIDEND of 100 per cent. by its return premium plan.

Copartnership.

I HAVE, THIS DAY, associated with me my son, JOHN S. PESCUD, and the Drug business hereafter will be conducted under the firm of

P. F. PESCUD & SON.

The CASH PLAN will be STRICTLY OBSERVED.—We must have the cash or an equivalent, on delivery of goods.

The Senior partner returns his thanks to his friends, and the public generally, for their generous support for the past 25 years, and hopes it will be continued to the new firm, who will use their utmost exertions to merit and share increased patronage.

All indebted will please pay up this month, as my old business must be closed speedily.

FIRE INSURANCE.

HAVING BEEN APPOINTED THE REPRESENTATIVE OF THE LONDON LIVERPOOL AND GLOBE INS. CO. WHOSE CAPITAL AMOUNTS TO

$17,000,000 IN GOLD.

I am now prepared to Insure all kinds of

PUBLIC AND PRIVATE BUILINGS, RAILROAD DEPOTS, SHOPS, ROLLING STOCK, BRIDGES AND TRACKS, FACTORIES FOUNDERIES,

MILLS AND MERCHANDISE.

IN ANY PART OF NORTH CAROLINA AT EXCEEDING LOW RATES.

I will when desired issue Permanent Policies which insures the property specified forever, unless the assured chooses to cancel his Policy in which event all the premium he has paid will be returned less five per centum.

The loss of a Court House or other Public Building at the present time would be a public calamity, whereas a trifling amount paid for a polic WILL SECURE A SUFFICIENT SUM TO REBUILD SHOULD THE PROPERTY BE DESTROYED BY FIRE.

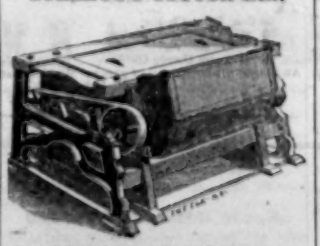
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.
